OFFICIAL USER GUIDE | NOVEMBER 2026

For the Newworld+ direct-download Android app.

newworld.ph

Start watching in minutes

Download the official Newworld+ APK and sign in with your IPTV subscription account.

What you need

A compatible Android TV, Android TV box, or Android phone; reliable Internet; and your active Newworld+ IPTV credentials.

Official app download

newworld.ph/download.php

Use the TV browser or scan the QR code with your phone. The current downloadable file is named Newworld+.apk.

Only download from the official Newworld website.

ANDROID TV / TV BOX

01 Download

Open the official website in your TV browser, or transfer the APK to your TV box.

02 Install

Open Newworld+.apk in Downloads. If Android asks, allow installation from that source.

ANDROID PHONE / TABLET

01 Download

Visit the official download page using Chrome or your device browser.

02 Install

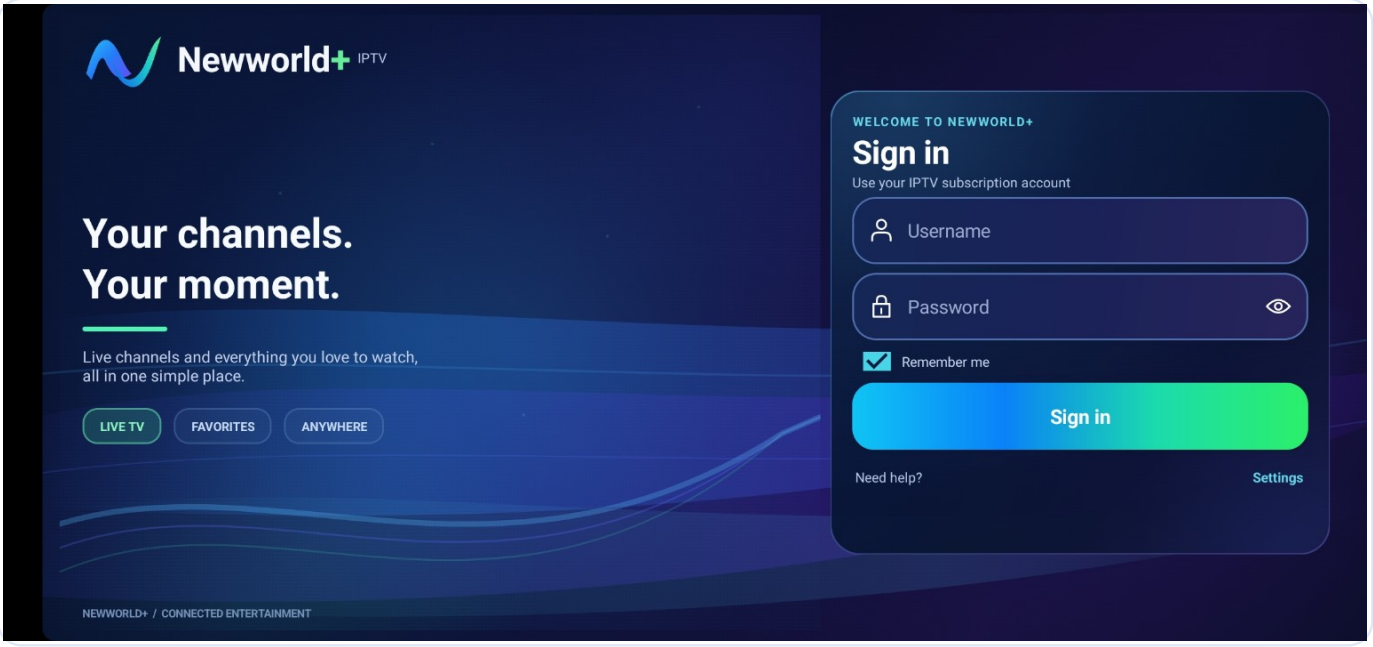

Open the downloaded APK and follow the Android installation prompts.

Next: sign in

Open Newworld+ and enter the IPTV account details provided for your subscription.

Sign in securely

The screen below is the actual Newworld+ login page, not a design mockup.

ACTUAL APP SCREEN / SIGN IN

01 Username

Type the IPTV username assigned to your Newworld+ subscription.

02 Password

Enter your IPTV password. Use the eye icon to show or hide it.

03 Remember me

Leave this selected on a trusted household device if you want to retain your login.

04 Sign in

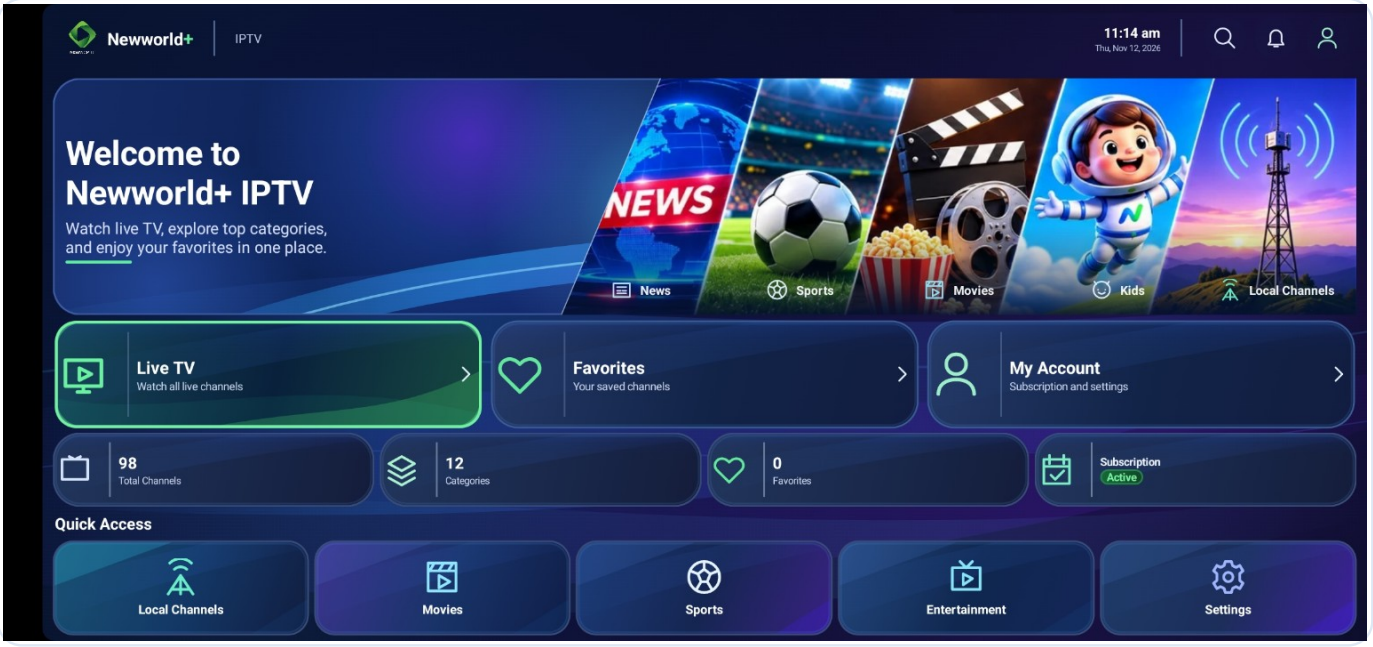

Select Sign in. When authenticated, the app opens your home dashboard.

Keep your credentials private

If you cannot sign in, check your account status and password, then contact Newworld support. Never share your login outside your household.

Find your way around

Everything starts from your Newworld+ dashboard. The screenshot shows the real application layout.

ACTUAL APP SCREEN / HOME DASHBOARD

01 Live TV

Browse your IPTV channels by category and preview the selected channel.

02 Favorites

Open channels you have saved for quick access.

03 My Account

See your account information, Settings, Diagnostics and support options.

04 Quick Access

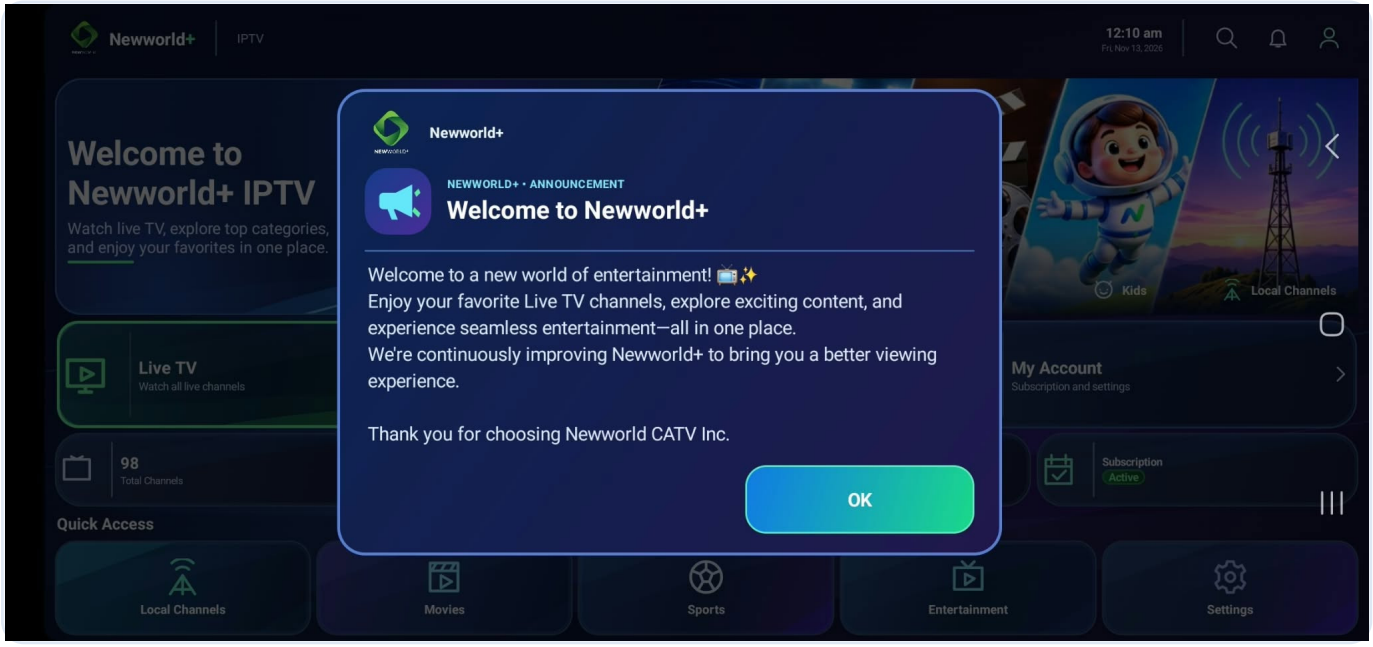

Jump directly into shortcuts like Local Channels, Movies and Sports.

TV remote navigation

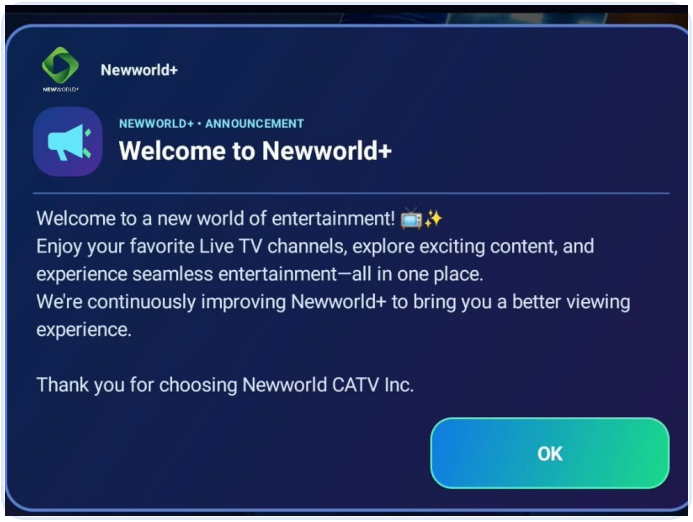

Move the highlight using your directional buttons. Press OK to choose a card. Use Back to return from Live TV or account pages.

News when you start Newworld+

An official announcement may appear on the dashboard each time you sign in or open the app.

ACTUAL APP SCREEN / NEW WORLD+ ANNOUNCEMENT

01 **Read the announcement**

Newworld+ displays news published by the Newworld team.

02 **Select OK**

Use your TV remote or touchscreen to close the message.

03 **Continue watching**

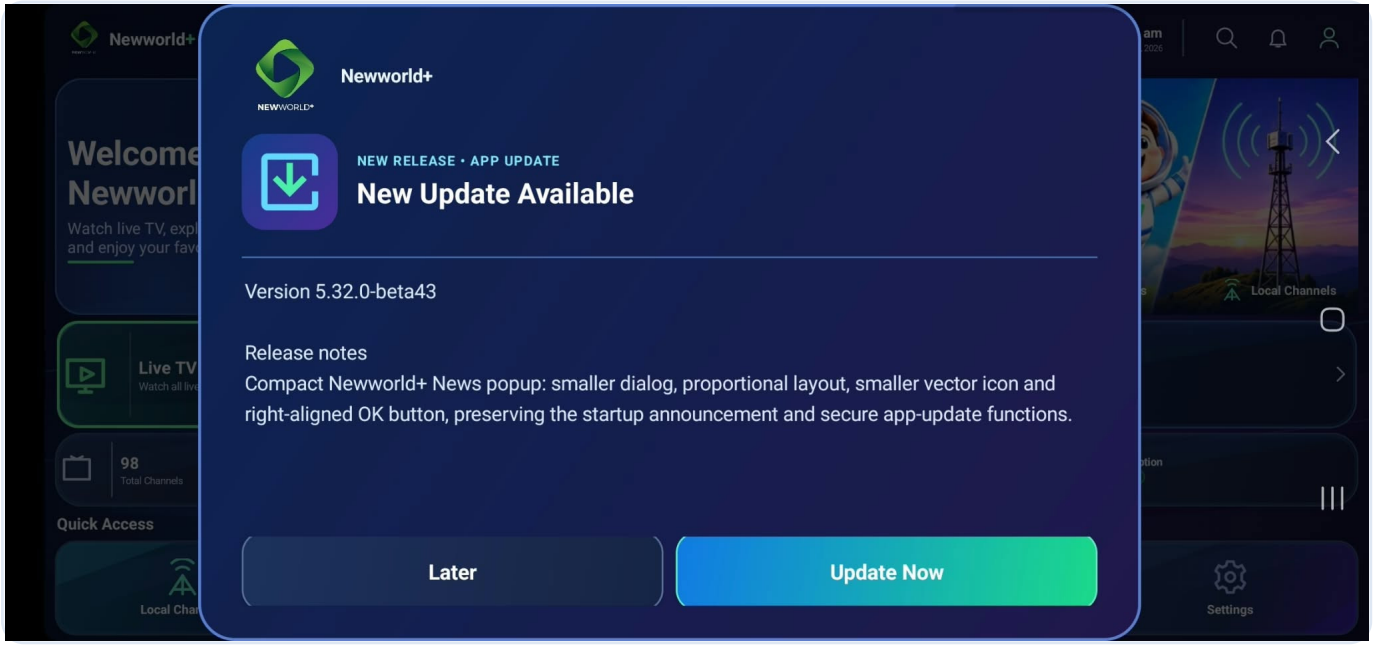

Return to the dashboard; an update alert may follow.

WHEN DOES IT APPEAR?

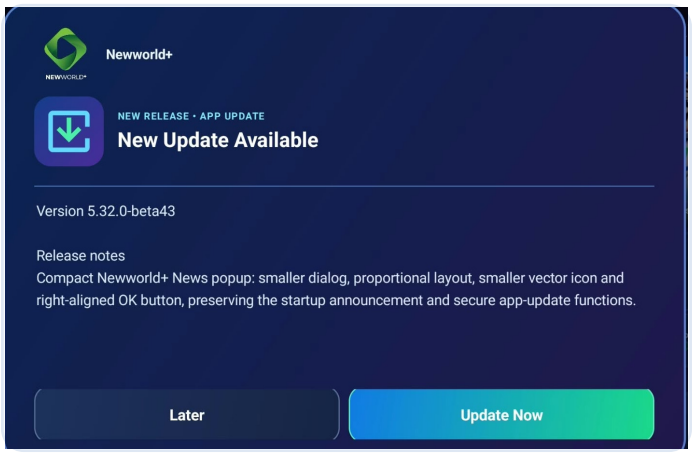

The announcement appears after login or a fresh launch while it remains active. On supported versions, reopening the app after being away can also trigger it. It is not an error or a payment request.

A new version is available

When a newer Newworld+ APK is published, the dashboard displays its version number and release notes.

ACTUAL APP SCREEN / NEW UPDATE AVAILABLE

01 **Read the release notes**

Review what changed in the version shown on screen.

02 **Choose Update Now**

Download the app update; approve installation in Android.

03 **Or choose Later**

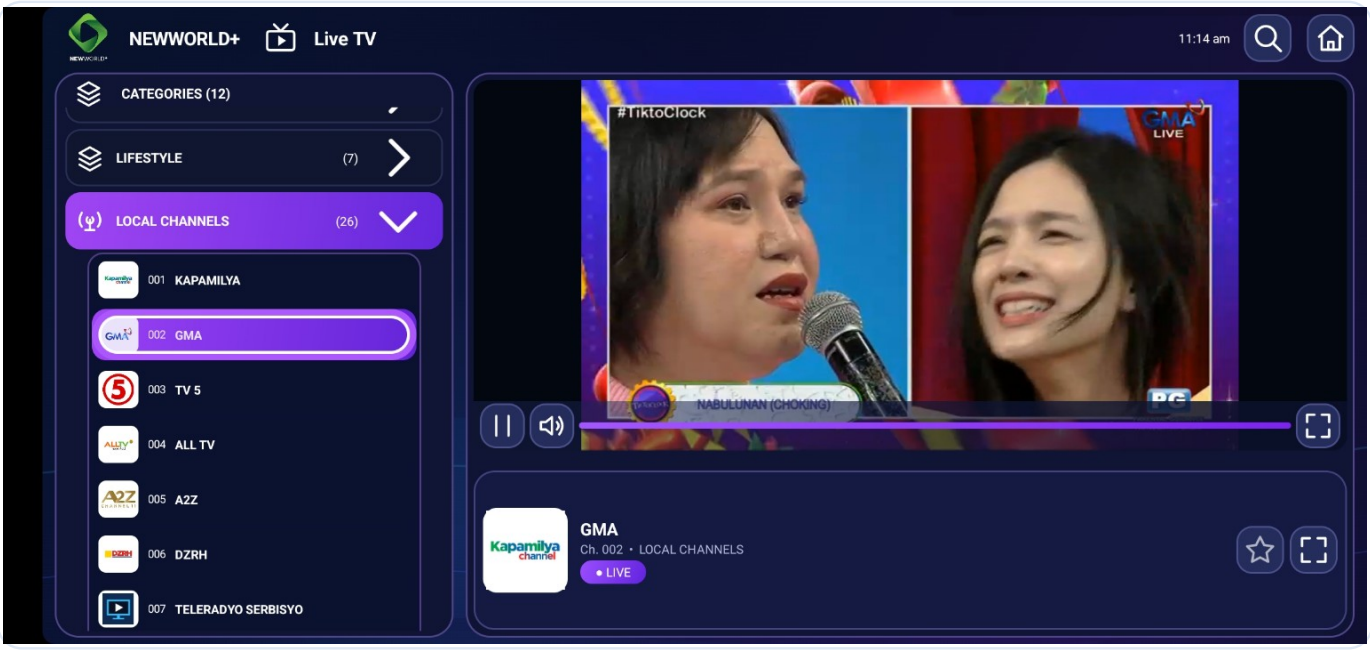

Keep using the current version and update another time.

IMPORTANT TO KNOW

The update notice appears only when a higher version is available. Update Now requires an internet connection, and Android may request permission to install. Later does not uninstall the app; use My Account > Check for Updates when ready. The version in this screenshot is an example.

Browse, preview and watch

The actual Live TV screen has categories on the left and channel preview/playback on the right.

ACTUAL APP SCREEN / LIVE TV CATEGORY & PREVIEW

01 Choose a category

Press OK on Local Channels, Sports, Movies or another category to expand it.

02 Highlight a channel

Use Up/Down. The selected unlocked channel previews in the video area.

03 Watch fullscreen

Press OK on a channel to watch fullscreen. Press Back to return to the channel browser.

04 Return to category

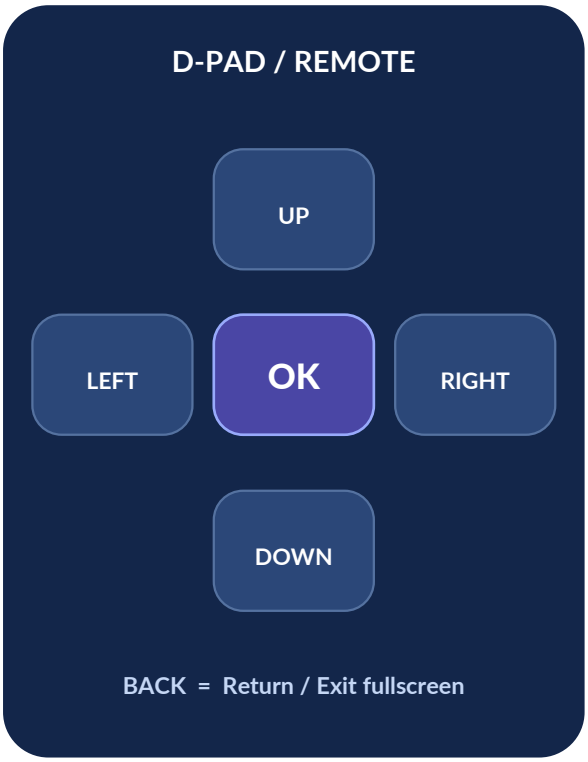

Press Left to go back to the category heading and choose another group.

Preview & parental controls

Automatic preview starts shortly after a channel is highlighted when enabled in Settings. Protected channels may require a parental PIN.

Use the TV remote

Navigate confidently without a mouse or touchscreen.

Up / Down
Move between channels or categories.

OK / Enter
Open a category; play a channel.

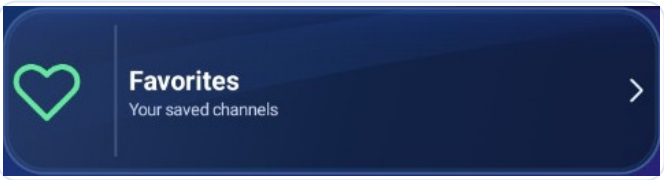

Left
Return from a channel to its category.

Right
Move into the expanded channel list.

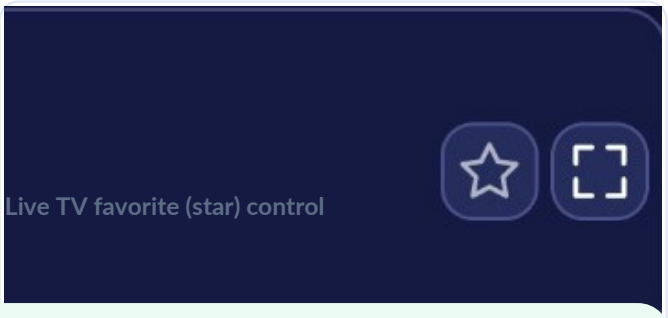

Back
Exit fullscreen or return to home.

Star
Save or remove a favorite channel.

FAVORITES: SAVE AND FIND CHANNELS

Dashboard Favorites shortcut

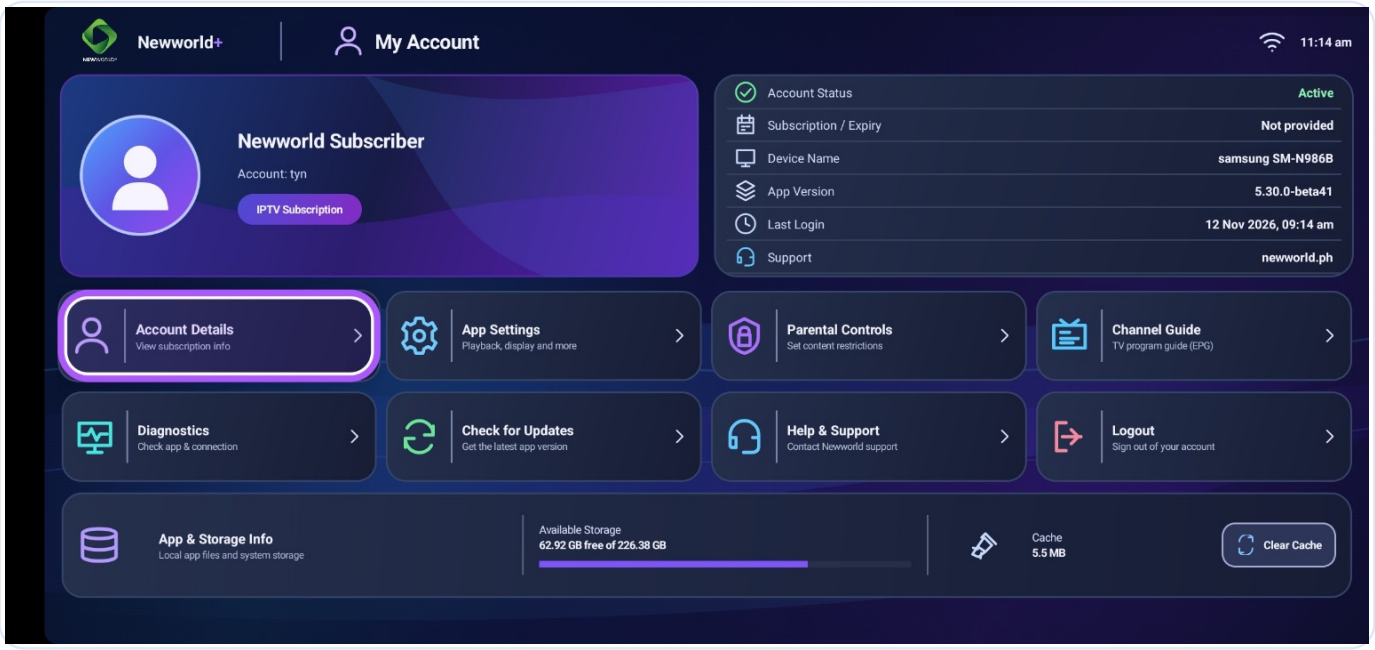

How Favorites works

While a channel is playing or selected, use the star / Favorites option to save it. Return to the dashboard and open Favorites to quickly find your saved channels. The available controls can differ between the TV and touch interface.

Manage your Newworld+

Your account page gives quick access to subscription details, controls and support.

ACTUAL APP SCREEN / MY ACCOUNT

01 Account Details

Review the subscription account and service status shown in the app.

02 App Settings

Change video preview, display options and playback-related preferences.

03 Parental Controls

Set restrictions for content that should require a PIN before viewing.

04 Help & Diagnostics

Find support, check app health, view the channel guide, or check for updates.

Screen details may change

Your account name, device, app version, subscription status and available settings can differ from this sample screenshot.

Need a hand?

Most installation, login and streaming issues can be checked with these simple steps.

01 App will not install

Download Newworld+.apk again from the official page. Open it in Downloads and allow installation from your browser if prompted.

02 Cannot sign in

Check your IPTV username/password and that your subscription is active. Contact Newworld support for help.

03 Buffering or black screen

Check Wi-Fi or Ethernet, reopen the channel, and confirm your Internet connection is stable.

04 Preview will not play

Open App Settings and enable Preview on channel focus. Highlight an unlocked channel and allow a moment.

05 Remote focus problems

Install the latest Newworld+ build, then reopen Live TV. Use Back and re-enter if navigation becomes stuck.

06 App feels slow

Close other apps and free storage. Reduce Aurora animation in Settings on entry-level TV boxes.

Get the official Newworld+ app

newworld.ph/download.php

Scan the QR code or open the website. For help with your IPTV account, contact Newworld CATV through the official website.
